TEMPORARY GROUND SIGN APPLICATION PROCESS

- Step 1:** Applicant submits completed application (see checklist to determine if complete).
- Step 2:** Applications for ground, temporary, portable and off-site signs must receive approval from the Planning Commission (see §10.0319(B,3)). This may be as part of a Site Plan approval process, or as a separate application.
- Step 3:** The application is forwarded to the Township department heads for review (*township policy*). Each department head is allowed 5 days to review the application and respond in writing with recommendations to approve, approve with conditions or deny the application to the Clerk's Office.
- Step 4:** If favorable reviews are received, the application is placed on the next available Planning Commission agenda for review.
- Step 5:** The Planning Commission will review the application for conformance to the Zoning Ordinance regulations and acts accordingly to approve, approve with conditions or deny the application.
- Step 6:** If negative reviews are received and revisions to the plans are needed, the applicant will be notified of the requested changes. Once revised plans are received, they shall be routed through the review process again to those requesting the changes (see step 3).
- Step 7:** If the Planning Commission approves the sign, the applicant will be notified of the approval and their requirement to post a cash bond in the amount of \$500.00 to assure the construction of the sign as approved.
- Step 8:** After the bond is received from the applicant, the Clerk's Office communicates the results of the internal review to the Building Official, indicating that a permit may be issued. Any Building or Electrical Permit applications received in Step 1, along with copies of the approved plans/drawings, will be forwarded to the Building Official, with copies sent to the applicant and property owner.
- Step 9:** The Building Department will then process the Building and Electrical Permit applications and will notify the applicant when permits are ready and any fees required. The Building Department may take up to five (5) working days to process the permits.
- Step 10:** Applicant installs the sign according to the approved plans, and presents copies of final inspection verification to the Clerk's Office along with a written request to release the bond.
- Step 11:** The Clerk's Office will request the Finance Department verify the township is holding the bond and request the Building Department, Water and Sewer Department and the Township Engineer inspect the sign to verify it was built according to the approved plans.
- Step 12:** If negative reviews are received, the applicant will be notified of the items that require attention. Once the applicant has addressed all concerns, they must submit a letter indicating the issues have been addressed. The Clerk's Office will forward the revised plans for another review to those requesting the changes.
- Step 13:** If favorable reviews are received, the Clerk's Office will place the request on the next available Township Board agenda for release.
- Step 14:** Once the bond is released by the Township Board, the Finance Department is notified and a check is written and sent to the applicant.
