April 9, 2010

Dear Macomb Township Supplier:

We are pleased to inform you that Macomb Township has joined the Michigan Intergovernmental Trade Network (MITN) which is a centralized bid notification system. This system was created in conjunction with BidNet® for supplier/ vendor registration, and may be used by the named agencies to post bids, quotes, requests for proposals, construction notices, addenda, and awards including tabulations. Macomb Township expects to go "live" by May 1, 2010 or before.

By establishing this centralized system, vendors have a single point of contact and broader access to new business opportunities in Macomb Township, as well as, throughout the region. The system provides the following benefits:

- 24-hour access to business opportunities
- Notification based upon your designated product or service
- More reliable and timely mechanism for obtaining documents
- Vendor managed registration system

Effective immediately, vendors with Internet access should review the registration options at www.mitn.info. If you do not have Internet access, please call the BidNet® support group at **(800) 677-1997 extension # 214**. They will be happy to register you over the telephone. As this e-procurement system provides many benefits to your company, be sure to read and decide which registration option is best for your business.

Macomb Township, as well as other participating agencies, strongly encourages all companies to look closely at the option to receive automatic notification of solicitations. We look forward to providing you with increased business opportunities, less paperwork, and a simplified bidding and quoting process for everyone involved. We appreciate your cooperation and welcome your participation.

Should you have any questions regarding this new system or registration, please call **BidNet®**, at **(800) 677-1997** or any agency listed herein.

Sincerely,

Michael Koehs
Township Clerk
