

SAVE WATER: PROTECT YOUR HEALTH AND ENVIRONMENT

The Fraser Sinkhole is having an impact on many daily activities from finding alternate driving routes to conserving water. Eleven communities are being asked to conserve water during this crisis. Many more will be impacted if high volumes of wastewater result in discharges into the Clinton River.

MSU Extension is offering a presentation on why this collapse occurred, an update on current activities, and information and materials to conserve water.

MICHIGAN STATE UNIVERSITY | **Extension**

Macomb MSU Extension programs and materials are open to all without regard to race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, marital status, or family status. MSUE, U.S. Dept. of Agriculture, and Macomb County Board of Commissioners cooperating. MSU is an affirmative action equal opportunity employer.
