SPECIAL LAND USE/SITE PLAN REVIEW APPLICATION

REVIEW PROCESS

What is a Special Land Use/Site Plan? A Special Land Use/Site Plan application is for a project that is outside the permitted use for property that may potentially impact the adjacent properties that includes a plan drawn to scale, showing the layout of the proposed use and structure.

What are the procedures for a Special Land Use/Site Plan Review? Upon receipt of a complete application, the Planning Department will send copies of the application to the appropriate department heads for review and recommendation. These departments will be given approximately ten (10) days for review. Results of the review shall be communicated to the applicant. The Planning Commission will hold a public hearing, at which your presence is **mandatory**, review the request. The Planning Commission has final authority to approve, approve with conditions or deny site plans. After the Planning Commission's approval or approval with conditions, a Notice of Special Land Use shall be recorded with the Macomb County Register of Deeds.

ALL APPLICANTS TAKE NOTICE TO THE FOLLOWING:

- 1. Attendance Required.** The Planning Commission requires the applicant or a representative to be present at the meeting, otherwise the item will be tabled to another meeting date.
- 2. Time Charge for Planning Consultant.** In some instances, the use of outside consultants may be needed, and if deemed necessary, their hourly rate may be added to the review fee.
- 3. Expiration Date.** Site Plan approval is valid for one (1) year from the date of approval and may be extended by the Planning Commission, if the applicant makes a request in writing BEFORE the expiration date. Note: It is not Macomb Township's responsibility to notify you prior to your project expiration date. Failure to apply for an extension before the expiration date will require a new submittal.
- 4. Multiple or Partial Parcel Applications.** Should the proposed development include more than one or a portion of a parcel, it may be accepted for review by the Planning Department. However, no engineering review or building permit shall be issued until all required parcel splits and/or combinations have been executed to the Township Assessor's satisfaction.
- 5. Application Processing; Placement of Issue on Planning Commission Agenda.** The review process as described herein will govern the timing of the application. Site plan reviews, and re-reviews, will continue as described until all departments recommend approval of the plan. At any time after the first departmental review, the applicant may request the item be placed on an agenda of the Planning Commission despite any negative recommendations. The Planning Department will comply with said request received in writing; however, placement on a Planning Commission agenda does not guarantee approval of the site plan. This policy is intended to provide the applicant with a means to receive Planning Commission review when they may not agree with internal comments. If the item is placed on an agenda and is tabled by the Planning Commission or applicant at the meeting, the tabling fee as described in item 2 above, will apply.
- 6. Signs.** Signs may be submitted simultaneously, however, a separate **Sign Application(s)** shall be submitted for such sign(s).
