SITE CONDOMINIUM FINAL PLAN REVIEW APPLICATION

OVERVIEW

What is a Site Condominium Final Plan? A condominium final plan is a detailed drawing showing the boundaries, locations of buildings, parking, walkways, roads and other features that follow the approved preliminary plan.

What are the procedures for requesting a Site Condominium Final Plan? Upon receipt of the complete application, the Planning Department will send copies of the application to the appropriate department heads for review and recommendation. Results of the review shall be communicated to the applicant. These departments will be given approximately ten (10) days for review. The Planning Commission will hold a public hearing, at which your presence will be mandatory, review the request and make a recommendation to the Township Board. The Township Board has final authority to approve or deny the request for conditional rezoning.

ALL APPLICANTS TAKE NOTICE TO THE FOLLOWING:

- 1. Attendance Required at Public Hearing.** The Macomb Township Planning Commission requires the applicant or the applicant's representative to be present at the Public Hearing, otherwise the item will be tabled to another meeting date.
- 2. Time Charge for Planning Consultant.** In some instances, the use of outside consultants may be needed, and if deemed necessary, their hourly rate may be added to the review fee.
- 3. Start of Construction.** No site improvements may be initiated, or units sold, until Final Plan has been granted.
- 4. Expiration Date.** Final Plan approval is valid for one (1) year from the date of approval and may be extended by the Planning Commission, if the applicant makes a request in writing BEFORE the expiration date. Note: It is not Macomb Township's responsibility to notify you prior to your project expiration date. Failure to apply for an extension before the expiration date will require a new submittal.
- 5. Department Reviews.** Submittal of this application does not imply that the plans are acceptable, the review of the information by all departments and agencies will indicate if they are acceptable.
- 6. Posting of Financial Guarantees for Completion of Site Improvements.** Prior to the issuance of construction permits, the applicant must provide Macomb Township with a financial guarantee to ensure the completion of all site improvements. The amount of such guarantee shall be based on a detailed cost estimate, provided by applicant, and as approved by the Township Engineer. Once the site improvement bond is posted and the site improvements completed, the applicant must submit an as-built reproducible mylar of the completed site for approval by the Township Engineer.
- 7. Master Deed.** Applicant shall submit a true copy of the recorded Master Deed for the development for review by the Macomb Township Engineer and Attorney. They will communicate to the Township Planner the recorded Master Deed agrees with the draft submitted and approved during this phase. After the Township Attorney approves the recorded Master Deed and the Township Engineer approves the as-built mylar, units may be sold and permits may be issued
- 8. Final Acceptance:** The Township requires the completion of all required site improvements prior to final acceptance. After construction of the condominium subdivision site improvements, as-built reproducible mylar of the completed site is to be submitted to the Township by the Township Engineer. A building permit for units will not be issued until the as-built mylar for site improvements, excluding sidewalks and driveways, has been duly reviewed and accepted by the Township.
