Fence Permit Requirements

APPLICATION FOR FENCE PERMIT REQUIREMENTS:

1. Application to be filled out completely and signed, include a copy of driver's license.
2. You will need to submit 2 copies of your plot plan (can be supplied by the Macomb Township Building Department) indicating where the fence will be located, including both individual and total length (see sketch), fence type and fence height. * **Must indicate if fence meets pool barrier code requirements.**
3. We will arrange a grade check which will take approximately 2-3 days. (The grade check involves the Water Department going to the location and making sure nothing is constructed in the easements and that no alteration of the grade has been made.)
4. When grade check has been completed and approved, we will process the permit and notify the applicant to come in to pay for and pick up the fence permit (it takes 7-10 working days to get a permit.)
5. The permit holder must call in for a final inspection on the fence.

No double fencing (no fence may be erected closer than 3 1/2' to any other fence).

No fences with spikes or similar pointed tops.

All fences shall be erected with the flat side or finished side of the panel facing outward towards the neighboring property or street.

Permit holder is responsible for identifying all property lines.

Permit Fee \$75.00

NOTE:

Macomb Township has no jurisdiction over subdivision restrictions, therefore, if ordinance requirements are met, a permit will be issued. Please check your subdivision restrictions carefully, as some do not permit fencing.

*See the Macomb Township Fence Ordinance Chapter 14 Article II for complete requirements

Macomb Township shall not be responsible for the enforcement of any agreement between property owners in respect to fences; **nor shall the Township be responsible for the determination of the location of any fence to be erected on the lot line.**
